

Tool 2: Worksheet

Diagrammes and tools

There is a range of table-based tools. The simplest is the *Influence-interest matrix*

Influence - interest matrix, adapted from UNCHS 2001

	Low influence	High influence
Low Stake	Low priority stakeholder group	Useful for decision and opinion formulation and brokering
High Stake	Important stakeholder group possibly in need of empowerment	Important and effective group. May need to be balanced with support to weaker groups

A variation which looks also at capacity, is the Influence, Interest and Capacity analysis (UNCHS 2001)

Who	Influence	Interest	Capacity
Public			
Environment Authority	3	2	3
Provincial Council DMMC	2	2	1
Political Authority DMMC	2	3	2
Environment Officers	2	3	3
Private Sector			
Hoteliers Association	2	3	2
Restaurant Owners Association	2	3	2
CDC	2	3	2
Popular Sector			
Local Experts	1	2	1
NGO	2	3	3

Note: Scale 1 -3; indicating 1=low, 2=medium, 3=high
